EU Parliament Votes Against A Proof-Of-Work Ban: What This Means For Crypto

[Tyler Durden](#) - Monday, Mar 14, 2022

Update: Yesterday, when cryptos suddenly tumbled amid the market's delayed realization that the EU was set to vote on Monday on a new regulatory framework for crypto assets which could accelerate passage of a measure banning "proof of work" mining, which industry executives said could "*practically ban key digital currencies including Bitcoin and Ethereum in Europe*", we said (see below) that the good news for crypto bulls is that "*a small majority of committee members may vote against the measure.*"

If so, we added, "the selloff on Sunday night is merely the latest successful attempt at shaking out the weak holders."

That's precisely what happened because moments ago, **the EU Parliament voted against a proof-of-work ban.**

Horrific Details Of Bloody Provocation In Donetsk

[SouthFront](#) - 14.03.2022

On March 14, the Ukrainian Armed Forces committed [a mass murder of civilians](#) in the city of Donetsk, which is under the control of the DPR. After the attack, horrifying details of a pre-planned provocation were revealed.

Ukrainian Tochka-U missiles are targeting civilian areas under the DPR and the LPR control on a regular basis. Most of them are intercepted. Unfortunately, on March 14, another Tochka-U tactical missile equipped with cluster munitions targeted the center of the city of Donetsk. As a result at least 20 people were killed and 28 more were injured, including at least one child.

It turned out that a mass murder provocation was prepared by the UAF in the city of Donetsk. The attack was planned in advance, and the Ukrainian side attempted to inveigle civilians, especially women, to the city center at noon today.

For this purpose, special groups on the social media were created by the Ukrainian service. For example, a group called "Union of Mothers in Donbass" was created just on the eve of the attack. It was stuffed with fake accounts and was well promoted in Telegram.

Mass Formation Color Programming Hugo Talks #blue #yellow

[ForbiddenKnowledgeTV](#) - 14.03.2022

Some astute observers have noticed that the color coding of global COVID "safety" propaganda over the past two years has very often used the same blue-and-yellow color scheme as that of the Ukrainian flag.

Same color-coding, same psychological warfare tactics, same criminal Globalists hijacking your body and soul.

It appears that the mass formation psychosis created around vaccination compliance is now being re-directed towards inducing the masses to support the Globalist war effort backing the Neo-Nazi regime of Volodymyr Zelenskyy and demonizing the Russian people,

Kamervragen over ontwikkeling van Europese digitale identiteit

[Security.nl](https://www.security.nl) - maandag 14 maart 2022

In de Tweede Kamer zijn vragen aan staatssecretaris Van Huffelen van Digitalisering gesteld over de ontwikkeling van een Europese digitale identiteit en in hoeverre de techniek achter de corona-app hiervoor zal worden gebruikt.

Vorig jaar presenteerde de Europese Commissie plannen voor de invoering van een digitale identiteit waarmee burgers zich in de gehele Europese Unie kunnen identificeren. Vanuit een speciale wallet-app voor smartphones moeten burgers zich kunnen identificeren en elektronische documenten delen. Grote platformen zullen worden verplicht om de nieuwe Europese digitale identiteit te accepteren.

"Is de techniek en de software voor de corona-app en voor de scanner voor het controleren van de vaccinatiestatus, te gebruiken voor de verdere ontwikkeling van de Europese digitale identiteit?", vraagt Kamerlid Van Haga.

Google Dialer en Messages verzamelen allerlei privédata Androidgebruikers

[Security.nl](#) - dinsdag 15 maart 2022

De Google Dialer- en Messages-apps, die standaard op Androidtelefoons zijn geïnstalleerd, verzamelen allerlei privédata van gebruikers en sturen die naar Google, zo stellen onderzoekers van het Trinity College Dublin op basis van eigen onderzoek. De apps worden gebruikt voor bellen en het versturen en ontvangen van sms en andere berichten. Volgens Google zijn de Dialer- en Messages-apps op meer dan miljard toestellen geïnstalleerd. Zo meldt de Messages-apps aan Google wanneer een bericht is verstuurd of ontvangen. Het gaat om de tijd en een hash van de berichttekst. Hierdoor kan Google zien welke telefoons met elkaar communiceren en op welk moment. Ook verstuurt Messages het telefoonnummer van de afzender naar Google.

De Dialer-app laat Google weten wanneer er een telefoongesprek is gestart of ontvangen. Het gaat dan om de tijd en de gespreksduur. Zo weet Google wie met elkaar belt, op welk moment en hoelang.

Zelensky Invokes Pearl Harbor, MLK & 9/11 In Emotional Plea For "Humanitarian No Fly Zone"

[Tyler Durden](#) - Wednesday, Mar 16, 2022

Update(10:14ET): Zelensky was greeted in his virtual address with standing ovations by a full body of lawmakers from the House and Senate before before and after the speech. It was broadcast live on all major US networks, and as fully expected he made an emotional appeal for a US-backed No Fly Zone over Ukraine to stop Russia. "I am addressing President Biden, you are the leader of the nation, your nation. I wish you to be the leader of the world. Being the leader of the world means to be the leader of peace," Zelensky said.

The speech was laced with American patriotic references - clearly also an appeal to the broader US public - to **Pearl Harbor, 9/11, Martin Luther King Jr, and an urge for Americans to "remember" the heroism and leadership etched on Mt. Rushmore**. The speech further had a consistent theme that Russia had not just attacked Ukraine's people and values - but that it was attack on "basic human values" and thus the West itself.

Unreasonable, sinister for NATO to push China to condemn Russia

[Global Times](#) - Mar 16, 2022

The Ukraine crisis was largely triggered by NATO's aggressive eastward expansion. The bloc is the culprit. Instead of reflecting on itself, NATO piles pressure on other countries to stand with it against Russia. This is unreasonable and quite sinister.

"China should join the rest of the world in condemning strongly the brutal invasion of Ukraine by Russia," NATO Secretary General Jens Stoltenberg said on Tuesday, "The Russian invasion of Ukraine is a blatant violation of international law so we call on [China] to clearly condemn the invasion and of course not support Russia. And we are closely monitoring any signs of support from China to Russia."

NATO is a puppet of the US, a Cold War military bloc manipulated by the US. The obsolete military organization has launched many ruthless military aggressions and triggered corresponding disasters in which local people underwent great suffering. NATO's aerial bombing campaign against the Federal Republic of Yugoslavia in 1999 during the Kosovo War is one example.

Biden Calls Putin "A War Criminal" After Approving Armed Drones For Ukraine

[Tyler Durden](#) - Wednesday, Mar 16, 2022

Update(1536ET): Quite alarmingly, the White House is escalating its response to Russia's invasion of Ukraine both in words and in actions. Following shortly after the announcement that the US has approved armed drones to be transferred to Ukrainian forces, Biden called Vladimir Putin a "war criminal" - which also comes the day after a largely symbolic Moscow move to sanction the US president and top defense officials, including even Biden's son Hunter.

"I think he is a war criminal," Biden stated bluntly Wednesday afternoon. This after both the White House and International Criminal Court (ICC) said war crimes in Ukraine would be investigated. Per CNN, Biden's comments seemed initially confused, leading to [a "clarification"...](#)

"The President's remarks speak for themselves," press secretary Jen Psaki said afterward. She said Biden was "**speaking from the heart.**"

She said the ongoing investigation at the State Department into war crimes was still underway.

Biden initially said "no" when asked whether Putin was a war criminal, but returned to a group of reporters immediately to clarify what had been asked. When asked again whether Putin was a war criminal, he answered in the affirmative.

Western 'economic blitzkrieg' doomed to failure, Putin says

[PressTV](#) - Wednesday, 16 March 2022

President Vladimir Putin says the sanctions imposed against Russia over its offensive in Ukraine are doomed to failure.

The West has "one aim: the destruction of Russia" but its "economic blitzkrieg against Russia has failed," Putin stated during a televised government meeting on Wednesday.

The Russian president said keeping his country in check was one of the West's long-term policies. Putin said the economic sanctions were short-sighted. He added that the conflict in Ukraine had merely been a pretext for the West to impose sanctions. "The West doesn't even bother to hide the fact that its aim is to damage the entire Russian economy, every Russian."

Russian Military Has Evidence Ukraine Preparing Provocation Involving Poisonous Substances, MoD Says

[VT Editors](#) - March 16, 2022

Sputnik: On Monday, Russian ambassador to the United Nations Vassily Nebenzia cited a Russian military intelligence report that Ukrainian nationalist fighters transported 80 tonnes

of ammonia to the settlement of Zolochiv, Kharkov region. The envoy suggested these nationalist forces were preparing a provocation to accuse Russia of using chemical weapons. The Russian Defence Ministry says it has information that Ukraine's security service is planning a provocation involving the use of poisonous substances, and that Kiev has received support in these efforts from members of the UN Security Council.

"We have it on good authority that, with the support of Western countries, the Security Service of Ukraine is preparing a provocation using poisonous substances against civilians. The purpose of this action is to accuse Russia of using chemical weapons against the people of Ukraine," MoD spokesman Igor Konashenkov said in a briefing Wednesday.

"I want to officially declare that the units of the Russian armed forces involved in the special operation do not have and cannot have chemical munitions," Konashenkov stressed. Unlike the United States, Russia fulfilled its international obligations to completely destroy its stockpiles of chemical weapons a long time ago, he added.

West's global political and economic dominance ends – Putin

[RT](#) - 16 Mar, 2022

The Russian president says the "myth of the Western welfare state, of the so-called golden billion, is crumbling"

The president predicted food shortages across the world as Western sanctions against Russia are adversely affecting the entire global economy.

Touching on the decision by several Western powers to freeze Russia's central bank assets, Putin claimed that this would only serve to irreparably undermine trust in those nations, and make other countries think twice before placing their reserves in the care of those countries. According to him, nearly half of Moscow's assets were "simply stolen" by the West.

Addressing people in the West, the Russian leader said the massive sanctions imposed on Russia were already backfiring on the US and Europe themselves, with governments there trying hard to convince their citizens that Russia was to blame.

False Chemical Flag, Moscow Accuses The Ukrainian National Guard Of Planning An Attack

[SouthFront](#) - 17.03.2022

*Written by **Piero Messina***

A chemical attack on the Ukrainian populations. This is the accusation launched by White House Press Secretary Jen Psaki against the Russian army. The words of Joe Biden's spokesperson have traveled around the world and are yet another piece of a military campaign that the United States is fighting not boot on the ground but in mainstream newspapers.

What concrete evidence does the United States have of the Russian planning of this criminal plan? There is nothing concrete, Psaki speaks of American and Ukrainian intelligence sources.

It is not the first time that the US has accused a foreign country of being on the verge of using chemical weapons against the civilian population.

A COVID-19 Theory I Cannot Prove

For background, the sudden appearance of this virus – at first apparently epidemic, then apparently pandemic, aroused my suspicions from the first day. Responding to those suspicions, I followed and documented all the developments from Day One.

First, I recorded the dates on which each country announced its first domestic (indigenous) infection, those not transferred by travel to or from China, not arising from external contact. These were local infections which had no connection to Chinese nor to foreign travel; thus, by definition, they originated inside the country.

Foreign Fighters Fleeing From Ukraine (Videos)

[SouthFront](#) - 17.03.2022

Over the past week, hundreds of mercenaries and volunteers, mainly from NATO countries, as well as from Latin America, have arrived to Ukraine to fight for the “democratic values”. Motivated by Ukrainian and Western propaganda, some of them were convinced that they were going to walk through Ukrainian meadows, gaining easy fame in TikTok and easy-going Ukrainian girls.

Some of them thought that they were going to another war orchestrated by Washington, following the example of Yugoslavia, Syria, Iraq or even Afghanistan. They were assured that they would be paid a lot of money for minimal risk, and they would take part in combat operations like short-term departures from places of permanent deployment under the cover of drones and strike aircraft.

Russia Tells US 'We Have The Might To Put You In Your Place' As Turkey Seeks Putin-Zelensky Meeting

Ukraine wants Turkey as one of the guarantors of a possible deal with Russia, Turkish Foreign Minister Cavusoglu says, who is visiting Kyiv right now. "Russia has no objection to this," he says. Ukrainian foreign minister Kuleba says Kyiv sees Turkey among the guarantor powers.

The summit meeting of East European leaders, hosted in Kiev by Ukrainian President Vladimir Zelensky on March 15 was fabricated by the Polish government, with Polish secret service agents playing the part of journalists, and fake photographs of the meeting, press briefing, and train journey prepared by Zelensky's press office.

The operation was designed by the Poles to promote their role in support of the Ukraine, the Ukrainian refugees, and in defence of Europe against Russia, and seek new European, American, and NATO alliance funds and military equipment.

According to the Ukrainian publicity, the operation was designed to promote the appearance that Zelensky's regime is in control of Kiev, and to accelerate their application for admission to the European Union (EU).

War In Ukraine Day 22: Fog Of War Is Thinning

The 22nd day of the Russian military operation in Ukraine passed through the path laid down by the developments of the last days. Both Ukraine and Russia reported no major military breakthroughs in the form of capturing of large cities or offensive operations. Nonetheless, the joint forces of Russia, the DPR and the LPR once again tightened the creep on Kyiv's forces in the region of Donbass. At the same time, Russia reinforced its gains around the Ukrainian capital as well as the country's northeast, and reshuffled its units in Mykolaiv Region creating conditions for the advance along the western bank of Dnipro River in the south of Ukraine.

As in the previous days, on March 17, the most active military actions took place in the region of Donbass.

Brussel wil coronareispas zonder impactanalyse verlengen tot 30 juni 2023

Oorspronkelijk zou de verordening die het gebruik van het Digitaal Covid Certificaat (DCC) mogelijk maakt op 30 juni van dit jaar aflopen. Via het certificaat kunnen Europese burgers aangeven dat ze zijn getest, gevaccineerd of genezen van corona. One of the Russian Government's main accusations against the Government of Ukraine's President Volodymyr Zelensky is that Zelensky's forces are using Ukraine's civilians as "human shields" in order to prevent Russian forces from bombing Ukrainian Government forces: in other words, Russia says that a major reason for civilian casualties in this war is the Ukrainian Government's using its own citizenry as hostages to the conflict, so as to rely upon the non-brutality of Russia's forces in order to protect Ukraine's own forces.

In the sector east of Donetsk city, DPR units are pressuring Kyiv's forces deployed in their strong points of Mariinka and Adviyka. Despite intense clashes in the area, DPR forces achieved no breakthrough there.

Tactical clashes also took place north of the town of Ugledar in the nearby sector. Kyiv actively uses small mobile groups supported by military equipment to slow down the advancing forces there.

Fierce clashes continued in Mariupol city. Units of the Donetsk People's Republic, with the support of the Russian Armed Forces, are increasing their pressure on units of pro-Kyiv forces in the city center.

Putin Blames Western Ruling Elite For Global Economic Problems

[Tyler Durden](#) - Friday, Mar 18, 2022

Authored by Paul Joseph Watson via Summit News,

Vladimir Putin gave a speech in which he blamed the ‘western ruling elite’ for creating the economic hardships impacting people in Europe and the United States.

During a speech that was broadcast live on Russian television, the Kremlin frontman also slammed Russian oligarchs fleeing to Israel as a “fifth column” of “national traitors” who see themselves as a “superior race” and “cannot make do without foie gras, oysters or gender freedom as they call it.”

“I want ordinary Western people hear me, too,” Putin said.

“You are being persistently told that your current difficulties are the result of Russia's hostile actions and that you have to pay for the efforts to counter the alleged Russian threat from your own pockets. All of that is a lie.”

“The truth is that the problems faced by millions of people in the West are the result of many years of actions by the ruling elite of your respective countries, their mistakes, and short-sighted policies and ambitions. This elite is not thinking about how to improve the lives of their citizens in Western countries. They are obsessed with their own self-serving interests and super profits.”

Exposing the Very Secret World of Prohibited Bioweapons

This week, writing as of the 2nd week of March 2022, the United States will reach 1 million dead from COVID 19. This disease, according to, not so much facts, but rather the tired acceptance of corrupt press and a public sated with conspiracy theories, is the “Kung Flu.” As with false narratives, and there are so many, it all began with the Chinese love of “bat soup.” Behind this fanciful deception, the US began seeding tales of illegal Chinese bioweapons laboratories into the mix, all part of the “cover and deception” program that has, for many years, hidden a network of over 300 mysterious laboratories in over two dozen countries.

Statement by Permanent Representative Vassily Nebenzia at UN Security Council briefing on the humanitarian situation in Ukraine

UN Security Council, 17 March 2022, Vassily Nebenzia

Mme. President,

We listened carefully to the briefers. We share the expressed UN concerns over the humanitarian crisis that unfolds in several regions of Ukraine. Our colleagues in the Council also justly point at this crisis. But the difference is that assessments of some (mostly Western) states, apart from the situation with refugees, are based on the disinformation campaign that has been fueled ever since Russia started its special military operation in Ukraine (SMO) and that keeps progressing now.

Today we heard our Western colleagues articulate a variety of such allegations. Those accusations against Russia have already become proverbial – shelling of the maternity hospital in Mariupol, bombings of the Mariupol theatre, preventing refugees from exiting, bombardments of the Sultan Suleiman Mosque in Mariupol, shooting of a line of people in Chernigov from automatic arms. All those fakes were repeatedly debunked.

West wages information war against Russia, uses information terrorism — Lavrov

[TASS](#) -18 Mar, 2022

The top diplomat noted that the global information field was dominated by the American and British media and the Anglo-Saxon world in general

MOSCOW, March 18. /TASS/. The West is waging an information war against Russia, it includes elements of information terrorism, Russian Foreign Minister Sergey Lavrov said on Friday in an interview with the RT TV channel.

"Substitution of notions often takes place. When something happens, like mass protests, demonstrations that they [the West] don't like, they immediately call it domestic terrorism. It's a war. It's a war which involves methods of information terrorism. There is no doubt about this," he said.

Some of the most alarming data included in the evidence comes from a trio of DoD whistleblowers, who shared proof from the Defense Military Epidemiological Database of a nearly 1,000 percent overall rise in injuries and diseases. ANALYSIS: Russia is winning, America is self-destructing... prepare for EXTREME POVERTY as 50-year economic fairy tale implodes

[Natural News](#) - Friday, March 18, 2022 by: [Mike Adams](#)

Do not confuse the headline of this analysis with any conclusions of who we're rooting for.

We are rooting for America and the American people, yet we simultaneously realize that the current occupying US government is an illegitimate, treasonous crime cartel that rigged the 2020 election, built the covid bioweapon and is trying to mass exterminate the American people with mRNA “vaccine” injections. They do not represent the true “America.”

We root for all humanity and universal liberty, truth, health, abundance and peace. These are universal concepts that nearly all Democrats, Leftists, journalists and bureaucrats have utterly abandoned. And the crime cartel in the D.C. swamp at the moment is actively trying to exterminate millions of Americans with engineered bioweapons and DNA-altering gene therapy injections.

Zo stelt de commissie dat bijvoorbeeld de uiteindelijke afschaffing van CoronaMelder nog te starten Europees overleg met Google en Apple vereist om de tracking van bluetooth-berichten in de achtergrond weer uit Android en iOS te verwijderen. Organisaties vrezen massasurveillance door EU-voorstel voor aanpak kindermisbruik

[Security.nl](#) - vrijdag 18 maart 2022

Een coalitie van meer dan dertig burgerrechtenbewegingen maakt zich zorgen dat een nieuw voorstel van de Europese Commissie voor de aanpak van kindermisbruikmateriaal een gevaarlijk precedent schept voor massasurveillance van privécommunicatie. De organisaties hebben de Europese Commissie dan ook een open brief gestuurd waarin ze hun zorgen uiten ([pdf](#)).

Het voorstel richt zich op twee primaire zaken. Ten eerste worden alle providers die chat- of berichtendiensten bieden verplicht om misbruikmateriaal te detecteren, rapporteren en verwijderen.

Zo zouden aanbieders van chatdiensten en webmail worden gedwongen om elk privébericht te controleren, aldus de organisaties. Ten tweede zou er een Europees centrum moeten worden opgericht om deze activiteiten te coördineren en bepaalde preventiemaatregelen te vergroten.

The West's Russia Sanctions Could Lead To Many Unpredictable And Unpleasant Outcomes

Global supply shocks are historically rare events. All the more extraordinary to have two such shocks in quick succession - the second arriving even before the first has entirely faded away. That is what the world now experiences in the form of the Great Pandemic followed by the Great West-Russia economic war. The most visible symptom of the supply disruption is the sky-high price of energy and a range of other commodities.

Are you starting to notice a pattern by now? For the past six years, the American people have been emotionally manipulated by what I call “**manufactured waves of outrage**”. Once the corporate media identifies a trigger, it will obsessively focus on it for weeks or months on end, and the narrative that develops will be echoed and magnified by millions upon millions of social media denizens. Before too long, **much of the population is whipped up into an irrational emotional frenzy**, and that frenzy is used to move certain agendas forward.

Parts Of Spanish Economy Grind To A Halt After Five-Day Nationwide Truckers' Strike

[Tyler Durden](#) - Saturday, Mar 19, 2022

Authored by Nick Cobrishley via NakedCapitalism.com.

Like the Trudeau government, Pedro Sánchez's ruling coalition blames the truckers' strike on far-right elements while blaming Putin for record-high gas prices and decades-high inflation in Spain.

Spain's already struggling economy is in a bind after an indefinite strike by truck drivers has brought a number of key industries to a halt. Called by the Platform for the Defense of Road Transport of Merchandise, the strike began on Monday and is being followed by an estimated 85% of smaller truck companies and self-employed truckers. They are protesting surging fuel prices, unfair competition by larger companies and poor working conditions.

Canada is not however “most nations”, but has rather had the misfortune of hosting some of the most virulent groups of rabid ultra-right wing Ukrainian fascists who were transplanted into the Prairies and west coast by Anglo-American intelligence networks in the wake of WWII.

Was bombing of Mariupol theater staged by Ukrainian Azov extremists to trigger NATO intervention?

[The Grayzone](#) - [Max Blumenthal](#) - March 18, 2022

Testimony by evacuated Mariupol residents and warnings of a false flag attack undermine the Ukrainian government's claims about a Russian bombing of a local theater sheltering civilians.

Western media have reported that Russia's military deliberately attacked the Donetsk Academic Regional Drama theater in Mariupol, Ukraine, claiming that it was filled with civilians and marked with signs reading "children" on its grounds.

The supposed bombing took place just as Ukrainian President Volodymyr Zelensky appealed to US Congress for a no fly zone, fueling the chorus for direct military confrontation with Russia and apparently inspiring President Joseph Biden to brand Vladimir Putin, the Russian president, as a "war criminal."

Following urgent requests for arms from the Ukrainian government, at least 32 countries have announced their intention to ship billions of dollars in weapons into Ukraine for use against Russian forces in Ukraine. Photographic evidence shows that these weapons have already ended up in the hands of neo-Nazi paramilitaries – units which have already received training and arms the US and its NATO allies.
